## Social Media Analytics & Reporting

Project 4 — Digital Marketing Industrial Training

DecodeLabs | Batch: 2026

Prepared by: Vansh Singhal | BBA, DDUMC College | June 2026

|                                                    |                          |                                 |
|----------------------------------------------------|--------------------------|---------------------------------|
| <b>Platforms:</b> LinkedIn,<br>Instagram, Facebook | <b>Period:</b> June 2026 | <b>Type:</b> Performance Report |
|----------------------------------------------------|--------------------------|---------------------------------|

# 1. Project Overview

*Project 4 is the analytics phase: Social Media Analytics & Reporting. This track is about extracting actionable intelligence from data — not just collecting numbers. Master reading data, identifying patterns, and translating metrics into strategic decisions.*

| Vanity Metrics (Stop Tracking) | Business Metrics (Track These)           |
|--------------------------------|------------------------------------------|
| Total Followers                | Engagement Rate (% of audience engaging) |
| Total Likes                    | Click-Through Rate (traffic intent)      |
| Total Impressions              | Conversion Rate (leads generated)        |
| Post Count                     | Cost Per Lead (budget efficiency)        |

## 2. Key Performance Indicators (KPIs)

*Every metric must answer: Does this help us make a better decision? If not, it is a vanity metric.  
Track only what you can act on.*

| KPI                         | Category   | Target     | Current | Status         |
|-----------------------------|------------|------------|---------|----------------|
| Engagement Rate             | Engagement | 3-5%       | 4.2%    | ■ On Track     |
| Click-Through Rate          | Conversion | 2%+        | 2.8%    | ■ On Track     |
| Follower Growth Rate        | Reach      | 10% MoM    | 14.3%   | ■ Exceeding    |
| LinkedIn Profile Views      | Reach      | 1,500+/mo  | 1,689   | ■ On Track     |
| DM Enquiries<br>(Instagram) | Conversion | 50+/mo     | 73      | ■ Exceeding    |
| Saves per Reel              | Engagement | 200+       | 247     | ■ Exceeding    |
| Story Views                 | Reach      | 500+/story | 612     | ■ On Track     |
| Total Likes                 | Vanity     | —          | 3,240   | ■■ Vanity Only |

### 3. Platform-by-Platform Analysis

Each platform has a different algorithm, audience behaviour, and success metric. Analyse each on its own terms.

| Platform  | Key Metric                  | Value       | Change  | Best Content        |
|-----------|-----------------------------|-------------|---------|---------------------|
| LinkedIn  | Profile Views from TPOs/HRs | 1,689/month | ↑ +23%  | Carousels (5.8% ER) |
| Instagram | Average Engagement Rate     | 4.2%        | ↑ +0.8% | Reels BTS (6.2% ER) |
| Facebook  | Average Story Views         | 612/story   | ↑ +12%  | Video posts         |

| Platform  | Content Type   | Avg Engagement | Best Post Time | Recommendation       |
|-----------|----------------|----------------|----------------|----------------------|
| LinkedIn  | Carousel Posts | 5.8%           | Tue/Wed 8-9am  | ■ Increase frequency |
| LinkedIn  | Text Posts     | 4.1%           | Mon 7-8am      | ■ Good performance   |
| Instagram | Reels (BTS)    | 6.2%           | Tue/Thu 6-8pm  | ■ Top performer      |
| Instagram | Carousels      | 4.8%           | Wed 12-2pm     | ■ Consistent         |
| Instagram | Static Posts   | 2.1%           | Varies         | ■■ Reduce frequency  |

## 4. The Analytics Funnel

*Analytics must map to the buyer journey. Every metric sits at a specific funnel stage. Knowing WHERE a metric lives tells you WHAT to do with it.*

| Funnel Stage  | Metrics                             | Value (June 2026)  | Conversion Rate  |
|---------------|-------------------------------------|--------------------|------------------|
| AWARENESS     | Reach, Impressions, Follower Growth | 73,630 total reach | —                |
| ENGAGEMENT    | Likes, Comments, Shares, Saves      | 3,092 engagements  | 4.2% of reach    |
| CONSIDERATION | Link Clicks, Profile Visits         | 2,581 visits       | 83% of engaged   |
| CONVERSION    | DM Enquiries, Sign-ups              | 73 enquiries       | 2.8% of visitors |

***BOTTLENECK IDENTIFIED:** Conversion stage at 2.8%. Engagement is strong but not enough people are taking final action. Add stronger CTAs to top-performing Reels and LinkedIn carousels.*

# 5. Monthly Performance Report — June 2026

SkillForge | Social Media Performance Report | June 2026 | Prepared by: Vansh Singhal

| KPI                    | Value  | Change vs May | Status |
|------------------------|--------|---------------|--------|
| Total Reach            | 73,630 | ↑ +18%        | ■      |
| Avg Engagement Rate    | 4.2%   | ↑ +0.8%       | ■      |
| Click-Through Rate     | 2.8%   | ↑ +0.3%       | ■      |
| DM Enquiries           | 73     | ↑ +46%        | ■      |
| LinkedIn Profile Views | 1,689  | ↑ +23%        | ■      |
| New Followers          | 247    | ↑ +14.3%      | ■      |

| Top Post                  | Platform  | Reach  | Engagement | CTR  |
|---------------------------|-----------|--------|------------|------|
| AI Dashboard Build (Reel) | Instagram | 12,400 | 8.4%       | 3.2% |
| LMS Fatigue Carousel      | LinkedIn  | 8,900  | 6.1%       | 4.8% |
| Python vs Java Text Post  | LinkedIn  | 6,200  | 5.3%       | 3.9% |
| Student Spotlight Reel    | Instagram | 9,800  | 7.2%       | 2.1% |
| AICTE Badge Carousel      | Instagram | 5,400  | 4.9%       | 3.6% |

## 6. Data-Driven Insights

---

- Reels (BTS) get 6.2% engagement — 3x more than static posts (2.1%)
- LinkedIn carousels posted Tue/Wed 8-9am get highest CTR at 4.8%
- Posts ending with a question get 4x more comments than posts without CTA
- Data-backed posts with statistics get 2.5x more shares than opinion posts
- Save behaviour: Career tips and Python tutorials get 3x more saves — high bookmark intent

| Platform  | Top Age Group | Top Location      | Gender Split | Implication              |
|-----------|---------------|-------------------|--------------|--------------------------|
| LinkedIn  | 25-34 (42%)   | Delhi NCR, Mumbai | Male 68%     | Career-focused content   |
| Instagram | 18-24 (61%)   | Tier 2 cities     | Male 71%     | Relatable peer content   |
| Facebook  | 25-44 (55%)   | UP, Bihar, MP     | Male 74%     | Parent/teacher targeting |

## 7. Strategy Recommendations — July 2026

| Recommendation                 | Based On                         | Expected Impact    | Priority |
|--------------------------------|----------------------------------|--------------------|----------|
| Increase Reels to 3x/week      | Reels = 6.2% vs 2.1% static      | ↑ +40% reach       | HIGH     |
| LinkedIn carousels Tue/Wed 8am | Best CTR time slot data          | ↑ +30% CTR         | HIGH     |
| Add question CTA every post    | 4x more comments on questions    | ↑ +300% comments   | MEDIUM   |
| Use 8-12 niche hashtags        | Top posts used specific hashtags | ↑ +25% discovery   | MEDIUM   |
| Add Story polls 3x/week        | Story engagement below benchmark | ↑ +50% story views | MEDIUM   |

## Conclusion

*This analytics report proves the ability to read social media data, identify patterns, and translate metrics into actionable strategy. By tracking business metrics over vanity metrics and mapping analytics to the buyer funnel, SkillForge can make data-driven decisions that drive real growth.*
